

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for the City of Sandusky

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During July 1, to July 31, 2017, we did not complete all monitoring for Disinfection By-Products and therefore cannot be sure of the quality of our drinking water during that time.

What should I do? There is nothing you need to do at this time. This is not an emergency. You do not need to boil water or use an alternative source of water at this time.

The table below lists the contaminant(s) we did not properly test for during July 1, to July 31, 2017, how often we are supposed to sample for the contaminants and how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date we will collect follow-up samples.

Contaminant	Required sampling frequency	Number of samples taken	When all samples should have been taken	Date additional samples will be taken
Total Trihalomethanes	2 @ 12 months	1	July 1, to July 31, 2017	July 1, to July 31, 2018
Haloacetic acids	2 @ 12 months	1	July 1 to July 31, 2017	July 1 to July 31, 2018

What happened? What is being done? We monitor our distribution system every 12 months for Trihalomethanes and Haloacetic acids. We took two sets of samples during the correct time period, but they did not meet thermal preservation requirements. We resampled both sets of samples within the allowed time frame and one set of samples did not meet requirements. Sampling can only take place during specific periods and at specific sites and will be sampled during the next sampling period. We have taken steps to be sure to monitor for Trihalomethanes and Haloacetic acids, as required.

For more information, please contact Mr. Matt Harris, 810-648-4641 or 26 Speaker Road, Sandusky, Michigan, 48471.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by the City of Sandusky.

CERTIFICATION:

WSSN: 05920

I certify that this water supply has fully complied with the public notification regulations in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules.
